

## PRODUCT SHEET - INSTRUMENTATION

**Indicators**  
**Controllers**  
**Valve Motor Drives**  
**Valve Positioners**  
**Limits**  
**Profiler/Controllers**  
**Recorders**  
**Loggers**  
**Thermocouples**  
**Resistance Thermometers**  
**Transmitters**  
**Calibration**

Proctor Process Plant has detailed knowledge and experience of a wide range of process controller manufacturers although our preferred supplier is West Instruments. With our large range of stock and thorough understanding of all the West range of control solutions we can supply any quotation or technical assistance required.

A full range of temperature recorders and data loggers can also be supplied to suit any budget.

In addition a full range of thermocouples, PT/RT sensors, extension cables and transmitters can also be supplied. All thermocouples can be individually made to suit the exact location and temperature range required.
